

GETS OUT OF THE WOODS QUICK

LIV SERIES

WOOD SHEARS

Forestry-Recycling

From the forest to wood waste recycling, our hydraulic wood shears are perfect for the downsizing of logs, railroad sleepers, tree stumps and wood demolition waste. The powerful jaws of the LIV series wood shears are built strong to attack even the toughest deforestation job. The LIV series wood shears are made of durable wear-resistant HARDOX and STRENX steels and feature a unique innovative design which allows the shear to perform exceptionally in any hard wood recycling application.

- Constructed entirely with HARDOX and STRENX for superior strength and wear characteristics each unit carries the HARDOX seal of approval.
- Cutting jaw, blade and piercing tips are machined to shape from one solid piece of high tensile HARDOX wear plate to give extended maintenance free service intervals.
- Fully protected O.S.A cylinders provide unparalleled cutting force.
- Piercing tips for optimum performance in the downsizing and splitting of oversize logs and stumps.
- Designed in Australia by Ironbark, Manufacture by OSA with passion.
